

POINTING DEVICE HAVING IMPROVED OPERABILITY,  
ITS CONTROL METHOD AND MOBILE TELEPHONE

5

ABSTRACT OF THE DISCLOSURE

10       A pointing device that can be operated to move an  
operational object on a display screen in any direction  
comprises a control unit for changing an operation mode  
of the pointing device according to contents displayed on  
the display screen and, further, a mobile telephone  
comprises such a pointing device.
